1. Internet Access Policy and Parent/Carer Technology Agreement

POLICY STATEMENT

The use of digital devices and points of access to e-mail and Internet services to students at Mater Dei Catholic College is provided to students in order to support their educational needs. These digital devices and services are educational tools and must be used in a responsible manner. This policy recognises that there are constant advances and changes in the use of technology (including for e.g. software, apps, information sharing, social media platforms, new devices etc., and this list is not exhaustive). Therefore students must seek advice and clarification from the school as soon as possible when engaging with new or unfamiliar technology. Acceptable use is guided by the following principles:

- Students must behave in an ethical manner when using digital devices, whether school owned or student provided devices to access resources, communicate and interact with others.
- Online behaviour should at all times demonstrate a Christ-centred respect for the dignity of each person.
- It is never acceptable to use digital devices to harass, bully or humiliate others.

This Policy informs parents of the College's expectations when students are using the devices and services provided whether provided by the College and when using their personal equipment to communicate to or about members of the wider school community. Students whose actions contradict this policy will be subject to the College's Pastoral Care Policy and/or the Student Management: Suspension, Transfer and Exclusion Policy. This may include the withdrawal of access to services. Unacceptable material will be supplied to the NSW Police or other relevant agency (for eg., family & Community Services etc.,) at the discretion of College or CSO personnel.

The College reserves the right to capture, store and review all online activity and content created or accessed via school provided services. Such material is the property of the school and the CSO. School devices or personal may be taken or accessed where there is a reasonable belief that:

- There has been or may be a breach of the College rules or policy.
- There may be a threat of harm to a student or others or system security.

Students will cooperate with a direction from the school in providing access to the device.

Interaction with school staff on social media sites is only to occur in the context of a formal learning exercise which parents have been alerted to formally in advance.

STUDENTS USING COLLEGE OWNED TECHNOLOGY

Students and their families who use a school owned device have the following responsibilities:

- To care for the laptop / device to the best of their ability.
- To keep the laptop / device secure and protect it from any malicious damage.
- To bring the laptop / device to school each day in readiness for use in the classroom – this includes having the battery charged and digital files effectively managed.
- To replace or repair any damaged, lost or stolen laptop / device at their own cost if it is not covered by warranty.
- To return the school owned laptop / device (and any inclusions such as power cords and carry case) in good order when leaving the school.

CYBERSAFETY REQUIREMENTS

This policy addresses the particular use of these technologies that has come to be referred to as 'Cyberbullying'. The school will investigate and take action where this kind of bullying occurs in school and outside of school when it causes significant harm to the relationships between students and or teachers, or is criminal in nature or has the capacity to impact on relationships across the wider school community.

1. When using school and personal devices and services students will:

- Ensure that they access the Internet only within the school proxy and filtering system provided.
- Ensure that communication through Internet and email services is related to learning.
- Keep passwords confidential, current and private.
- Accept responsibility for managing devices to ensure that nobody else can use their account.
- Promptly tell their teacher if they suspect they have received a computer virus or spam (i.e. unsolicited email) or if they receive a message that is inappropriate or makes them feel uncomfortable.
- Seek advice if another user seeks excessive personal information, asks to be telephoned, offers gifts by email or wants to meet a student.
- Keep personal information including names, addresses, photographs and telephone numbers, of themselves or others, private.
- Use appropriate privacy controls for all internet and app based activities. i.e. location settings
- Ensure that school services are not used for unauthorised commercial activities, online gambling or any unlawful purpose.

2. When using the school services or personal mobile phones (or similar personal equipment) students will not, and will not attempt to:

- Disable settings for virus protection, spam and internet filtering that have been applied by the school and not attempt to evade them through use of proxy sites/software.
- Disable system installed apps eg. Hapara Remote Control Extension.
- Allow others to use their personal accounts.
- Deliberately use the digital identity of another person to send messages to others or for any other purposes.
- Enter 'chat' or 'social networking' internet sites without the permission of a teacher.
- Intentionally download unauthorised software, graphics or music that are not associated with the learning activity as directed by a staff member.
- Damage or disable computers, computer systems or networks or distribute damaging files or viruses.
- Disclose personal information about another person (including name, address, photos, phone numbers)
- Distribute or use information which is copyrighted without proper permission.
- Take photos or video of members of the school community without their consent.

3. When using ICT to communicate or publish digital content students will never include;

- Unacceptable or unlawful material or remarks, including offensive, abusive or discriminatory comments.
- Threatening, bullying or harassing material or make unreasonable demands.
- Sexually explicit or sexually suggestive material or correspondence.
- False or defamatory information about a person or organisation.
- The school name, crest or any school identifier without the written permission of the Principal.

PARENT AGREEMENT (please circle I/We statement)

I/we have discussed this policy with my/our child and we agree to uphold the expectations of the school in relation to the use of digital devices and services both at school and, where relevant, outside of school. We understand that a breach of this policy will incur consequences according to the school's Wellbeing Policies and that we will be responsible for the cost of replacing or repairing a school issued laptop / device that may be damaged, lost or stolen.

2. Mater Dei Catholic College Responsible Use of Electronic Communications and Digital Technologies, including GoogleApps for Education - Parent/Carer Agreement

Context

Today's students spend increasing amounts of time online, learning and collaborating. To be safe online and to gain the greatest benefit from the learning opportunities provided through an online environment, students need to do the right thing by themselves and others online, particularly when no one is watching.

Policy Statement

Staff and students at Mater Dei Catholic College use electronic communications and digital technologies (including the internet) for learning and teaching, and acknowledge they must be used responsibly. Online behaviour should at all times demonstrate a Christ-centred respect for the dignity of each person. Therefore, our school believes the development of digital citizens who demonstrate ethical and responsible online behaviour is essential, and is best taught in partnership between home and school.

Using electronic communications and digital technologies to harass, bully or humiliate any individual or group of individuals is prohibited.

The Catholic Schools Office (CSO)/school reserves the right to capture, store and review all internet browsing, including emails and associated communications, across the CSO/school's network. Users are advised that illegal online activities will be reported to the police.

Parent Information - School support for the safe and responsible use of electronic communications and digital technologies

Your child has been asked to agree to use the electronic communications and digital technologies responsibly at school. Parents/carers should be aware that whilst the school provides a filtered internet service, the nature of the internet is such that full protection from inappropriate content can never be guaranteed - this is particularly the case where students choose to use their own internet service.

At Mater Dei Catholic College we:

- have policies in place that outline the values of the school and expected behaviours when students use electronic communications and digital technologies
- provide a filtered internet service
- provide supervision and direction in online activities and when using digital technologies for learning
- support students in developing digital literacy skills
- have a digital citizenship program at the school which is reinforced across the school and with parents
- use mobile technologies for educational purposes e.g. podcasts or photos from excursions
- work with students to outline and reinforce the expected behaviours when using the electronic communications and digital technologies

Use of Google Apps for Education to provide email and online services for learning and teaching

The school provides email, document creation and online storage for learning through the Google Apps for Education service. Consequently emails, email account details and data may be transferred, stored and processed outside of Australia. In using the school's email and ICT systems users consent to this transfer, processing and storage of that information. In order to provide this service, the following data is required to be stored on Google's servers and includes student login information (First Name, Last Name, User name), and their network login password. The school has received advice that there is an agreement with Google to ensure privacy policies and security measures regarding the protection of personal information are in place.

CSO/school personnel responsible for the email system may have the ability to access, monitor, use or disclose emails and associated administrative data for the purposes of administering the system and ensuring its proper use.

As Parent/s/Carer/s I/we give permission for my/our child (please circle I/we statements) to use electronic communications and digital technologies for learning purposes. This permission is required so that students are able to make optimum use of the technology and actively participate in all lessons. **I/we** believe that my/our child understands their responsibility to use technology responsibly.

3. Mater Dei Catholic College Media/Communications Permission

Media/Communications Permission

I/we authorise the school to take and use photographs, video or sound recordings of the student/student's work. These items may be used by the school or the Catholic Schools Office (CSO) Diocese of Wagga Wagga for the purposes of advertising, promotion, media publicity, publication, display, web page usage or other use deemed appropriate by the school/Catholic Schools Office that portray the student in a positive light. If circumstances change, I/we undertake to inform the school if there is a need to rescind this media and communications permission
